The period within which certificates of the Atlanta Mines Company may be exchanged for certificates of the Reorganized Atlanta Mines Company has been extended from August 24th, 1918, to September 30th, 1918. For detailed information apply to A. H. HOWE, Goldfield, Nevada.	

SCOUTS COME HOME WITH STORIES ABOUT MOSQUITOES

The boy and girl scouts arrived home yesterday covered with mosquito bites. The young campers say the tentacles of the pests sank in an inch or two in their flesh and that they were on the job day and night.

ATTENTION, MOOSE!

All members of Tonopah lodge No. 974, I. O. O. F., are requested to meet at Eagles' hall on Main street at 5 p. m. Tuesday, the 27th, for the purpose of escorting the remains of our late Brother George Fottler to his last resting place.

By order of the Dictator,
WILLIAM MITCHELL, Secretary.
adv-a26:2

Character Came First.

If you are to become capable and efficient, desire, will, attention, concentration, purpose, discipline, reflection, analysis and research are each an exercise to be diligently applied. Wordsworth once resolved to make an excursion to the mountains, and, in spite of protests, carried out his intention in the face of a violent storm. He gave as his reason that "the abandoning of a plan to avoid a slight discomfort is dangerous to your character."

Mexico Expects Big Cotton Crop.
A bumper crop of cotton is expected this year in Mexico. Indications are that the cotton crop of the Laguna district of the states of Coahuila and Durango will be three times as great as for the past year, when it amounted to more than half a million bales of a total value of ten million dollars. None of it was exported, but it was all consumed in the factories of the republic.

Not That Flavor.
"You know, there are some hosts who allow their hospital meals to be seasoned with acidity."
"Do they? We always use catchup with ours."

GERMANS CUT BOY'S TONGUE OUT AND BURN HIS BACK TO BLISTER

Mrs. Ben Richardson, wife of the foreman of the Cashboy mine, is in receipt of a letter from her brother, Corporal Joseph M. Nelson, Battery A, field artillery, now in France, which will convince some of those who have been skeptical about outrages committed against children by Germans for he relates that he saw one victim of a devilish outrage. The letter in part follows:

"There was some big FIREWORKS on the 4th. The Boches didn't enjoy things half as much as the Allies. About midnight the Boches sent some planes and Zepps over but they didn't stay long; guess they didn't like the heat of the reception we gave them.

"When we moved in and commenced firing A Battery made a hit the fourth shot, which is exceptionally good shooting. We've been keeping the good work up the and if anything, better, so I guess the Huns realize there are some big guns working.

"WE'RE GETTING EVEN FOR THE TUSCANIA NOW.

"I saw a little kid about eight years old that the Germans had burned and otherwise worked over. His tongue was cut out and his back was just one big scar. They killed his Father and Mother. GEE IT WOULD BE A PLEASURE TO BLISTER THE DEVILS THE WAY THEY DO SOME OF THE PEOPLE THEY GET THEIR CLAWS ON. Well it is getting dark so I will ring off for tonight.

"NEXT DAY:—It is blowing to

beat the hand this morning. Sure hope it doesn't blow our camouflage off. We have enough to do without that.

"We were awakened this A. M. by machine guns firing at something and when we poked our heads out there was a plane over us. It was flying low and as near as we could make out it was a Boche. Guess the machine guns didn't run him off tho. Gee, he made tracks.

"The other morning an observation balloon was up and all of a sudden a Boche dropped from the sky. The balloon was an explosive one and just before the Boche arrived the observers blew her up and jumped. They were trying to set fire to the Boche, but were a little too previous. It was exciting though.

"It is surprising how close to the line the people are working their farms. Of course everything is sort of a makeshift, but it takes some one to keep even a makeshift going.

"The men here spent all the time they have digging dugouts. They are digging down to China for sure. There is going to be a fine set of miners when the war is over believe me.

"Well, I must ring off for this time and get to work. Give my regards to every one and write as often as possible, for letters are sure life-savers over here.

Corporal Nelson was in the same convoy as the Tuscania and the torpedo that sent the Tuscania to the bottom was intended for the vessel carrying Corporal Nelson's battery.

SEVEN MEN QUALIFY AT THE RIFLE SHOOT

The Tonopah Rifle club held its competitive shoot for the government buttons yesterday beginning at 9 o'clock in the morning and continuing almost to dusk. There were seventeen entrants altogether, all anxious to qualify for the expert badges and the members are flattered with the results which shows seven qualified for experts, six for sharpshooters and one for marksman. The weather was not as good as at some previous contests and the scores show that the best marksmen fell far short of their seasonal average. This was owing to the presence of a choppy wind and a constantly changing light due to the passing clouds which caused some embarrassment, especially in the rapid firing where two minutes are allowed for ten shots at 200 yards. The scorekeepers were Mrs. Arthur G. Raycraft and Mrs. Edward J. Ramsey. Sergt. E. J. Ramsey acted as range officer in charge of the shoot. The judges and timekeepers were A. R. Brooke, J. S. McGinn, William Gomm and Mickey Johns. The scores were the lowest of the season as evidenced by the following who qualified for experts:

Nick Kestle	218
Joe Connor (Manhattan)	217
Mark R. Page (Manhattan)	216
Dr. T. A. Musante	215
Jack Peck	214
Percival Nash (Manhattan)	212
Vail Pittman	210
Those entitled to sharpshooter buttons were:	
Clark James (Manhattan)	209
J. Juhl (Manhattan)	207
W. Wilcox (Manhattan)	207
Paul Harris	203
Arthur G. Raycraft	201
Ed. Collman	192

The only one qualifying for marksman was Pete Beko, who scored 187.

The other contestants scored as follows: F. C. Moore, 157; H. Herd, Manhattan, 137; Henry Schmidt, 128. Manhattan sent over eight members to share in the competition and the Tonopah club was glad to receive them as they were declared to be the finest bunch of clean sports that ever entered a match as there was not a single grouch among them and all accepted their rating without the slightest demurring. Manhattan prides itself on having the finest and most uniform aggregation of riflemen in the state and the fact that six out of the eight entrants from that camp were awarded buttons shows that their claims are well sustained.

HAS FINGER AMPUTATED

Willie Jack, charged with the murder of Mrs. Williams at Hicks Station, had his index finger of the right hand amputated Saturday as mortification had set in and there was danger of the arm becoming infected. His brother, Will Indian, arrived Sunday from Ely and will remain a few days to see if he is wanted for a witness. He has provided an absolute alibi.

FOR MAKING GAS MASKS

(By Associated Press)
DETROIT, Aug. 25.—The Ford company has offered its thirty-one assembling and service plants to the government for the production of gas masks.

Dennis N. Nolan, past grand knight of Tonopah council, Knights of Columbus, returned this morning from New York City, where he went as a delegate from Nevada to the national convention of the order. Mr. Nolan says the greater part of the time was taken up with discussion of war activities which have assumed the greatest importance of all work of the order. Arrangements were made for a national drive to begin in January for the purpose of raising \$50,000,000 to be expended for the welfare of our soldiers and sailors in 1919. The order has a balance of \$6,000,000 remaining from the last drive. In New York there is never any let up to the Knights of Columbus drives and a feature indicating on what a tremendous scale the order is conducting its work is shown by the fact that all of Coney Island with every attraction has been engaged for a whole week.

The proceedings of the convention were conducted with the strictest regard for war time economy so that all entertainment and expenditures for the guests was eliminated except an auto drive for the ladies. San Francisco is a candidate for the next convention but the selection was left to the executive committee with the understanding that if the war continues that the meeting be held in an eastern city to reduce the traveling expenses.

While in New York Mr. Nolan met Joe Reinhardt, formerly of the Bandbox barber shop, who is now in the aviation service. He also met Duncan Jos. Bathurst, formerly employed at the Extension and Midway mines, who is now engineer of a gas engine on one of Uncle Sam's destroyers.

PIONEER STAGE MAN MEETS SUDDEN DEATH

George A. Pottler died suddenly Saturday night at his home from an attack of heart disease. He was aged 57 years and leaves a widow, three daughters, Edith, Mildred and Dorothy, and three sons, Harold, Theodore and George. Two of the daughters are employed in the telephone office. The funeral will take place tomorrow afternoon under the auspices of the Moose of which deceased was a member. Three members of the order with James J. McQuillan, J. S. McQuillan and W. J. Douglass will officiate as pallbearers. The funeral will be held from the house at 4 o'clock.

Mr. Pottler was one of the earliest stage drivers identified with the development of southern Nevada and afterwards also conducted a line of freighting teams between Tonopah and Sodaville. He was born in Hingham, Mass., and came to Nevada 35 years ago during the Candelaria boom and became a resident of that camp. He owned an interest in Douglas camp and during recent years was employed at the Midway mine.

PERSONAL

CHARLES F. WITTENBERG left today for a short trip to Reno.

MILTON M. DETCH, the attorney, was a passenger for Reno on No. 23 this morning.

GEORGE L. DILWORTH wired the school trustees that he would be home by Wednesday.

BILLY FORD, father of Tim Ford, left this morning for Reno where he expects to meet his son.

JOSEPH L. JOSEPH, president of the MacNamara Mining company, has returned to San Francisco after spending three days in camp.

LEONARD B. FOWLER, candidate for attorney general on the Democratic ticket, is here in the interest of his candidacy.

JULES SMITH, Jules, Jr., Mrs. Smith and F. A. Burnham arrived today by auto from a short run to the vicinity of Lake Tahoe.

JUDGE MARK R. AVERILL left today for Winnemucca where he sits in the district court during the absence of Judge Ducker.

R. W. CATTERMOLE, chief engineer of the Tonopah & Goldfield railroad, passed through this morning en route to Reno.

DAVID TRABERT, who has been spending the past two months in Reno visiting his uncle, was among the arrivals today.

HENRY J. BARTLETT, the mine engineer, who has been visiting his mother, left this morning for the coast after assuring himself that Mrs. Bartlett was steadily improving.

JAMES C. ROBERTSON, is in Reno where he went Saturday to confer with Walter C. Lamb before the latter departs on his tour of Elko, Humboldt and White Pine counties.

DENIS N. NOLAN, delegate from the state council, Knights of Columbus, arrived home today from a month's visit on the Atlantic coast and reports having met Dan J. Robb in Boston.

KATHERINE H. MURPHY, former commercial instructor in the high school, has arrived safely in France, according to a postal card received this morning. Miss Murphy is with the Red Cross.

JAMES RUMSEY, former clerk in the Mizpah hotel, has arrived on a visit to his mother prior to enjoining from Ely on August 29th for Camp Lewis.

EARL W. HOLLINGSWORTH and wife, of Reno, are registered at the Mizpah. Mrs. Hollingsworth will be remembered as Miss Marie Fallini, of the district attorney's office.

MRS. KATHERINE G. SMITH, former teacher of domestic science in the local schools, arrived this morning from Reno with the announcement that she had been appointed supervisor of Hoover instruction for the state of Nevada.

PETER ROGERS, who has been employed in Tonopah for the past four years, and James McGuire, who has a record of twelve years in camp, were among those leaving this morning with Philadelphia as their destination.

MRS. M. BYRNES, who has been visiting Mrs. L. E. Glass, returned this morning to her home in San Francisco after looking after the grave of her brother, Pat Murphy, who was killed two years ago while working for the Tonopah Mining company.

RADIO OPERATOR GAINS ADMISSION

Stephen M. Johns, better known as "Mickey," received notice today from Fort Leavenworth, Kans., that he had been accepted for the signal corps training camp and that within three weeks he would be formally inducted in the service with notice that he must entrain for Fort Leavenworth within seven days after he is notified. Mickey has been balked in every effort to enter the service as he was rejected in the first draft on account of being too light. He made a second attempt and was turned down again, but thinks he is safely within the colors as a radio operator as he can send or receive fifteen words a minute, or five more than the requirements.

Manager Mudgett has received several applications from women for radio instruction and has been notified by the department to which the applications were referred that none can be received until women are declared eligible for this branch of the service.

DAVID TRABERT, who has been spending the past two months in Reno visiting his uncle, was among the arrivals today.

HENRY J. BARTLETT, the mine engineer, who has been visiting his mother, left this morning for the coast after assuring himself that Mrs. Bartlett was steadily improving.

JAMES C. ROBERTSON, is in Reno where he went Saturday to confer with Walter C. Lamb before the latter departs on his tour of Elko, Humboldt and White Pine counties.

AMUSEMENTS

DOUBLE HEADER AT BUTLER

Charlie Chaplin's first \$1,000,000 picture, "A Dog's Life," in three reels—it is without doubt the greatest production that Chaplin has ever made—and comes to the Butler with the very best of recommendation. We personally guarantee a laugh each time the crank of the machine turns. Interesting and amusing for all no matter how old or young. Take a tip from us and do not miss this for it sure is one of the wonders of the world. With this Chaplin feature will be shown Baby Marie Osborne. By reason of her charming, chubby little personality and her really remarkable talent, Baby Osborne in "Daddy's Girl," has won her way to a point where she is an attraction second to none. The popularity of her pictures is likewise to be found in the fact that they are always wholesome and sunny. They do not present sex problems or offer solutions to the difficulties of life. They are simple in plot and built around the child. They are distinctly different from any other pictures. They are Baby Osborne, first, last and all the time. "Daddy's Girl" is like a ray of sunshine on a dark day. First show 7:30; second, 9.

FORMER TONOPAH BOY ARRIVES SAFELY IN FRANCE

A telegram received today announced the safe arrival in France of Harold L. Kind, who went out from Camp Kearny where he enlisted from San Francisco over a year ago. Just before leaving for the eastern mobilization camp Harold was advanced to battalion sergeant major. He reports the trip was without incident.

DISSOLUTION NOTICE

Notice is hereby given that the firm of Stewart & Sellstrom, conducting an automobile business in Tonopah, was by mutual consent dissolved on August 20, 1918. All bills due the late firm are due and payable to J. W. Stewart and all bills owed by the late firm will be paid by J. W. Stewart.

J. W. STEWART,
J. A. SELSTROM.

Dated: Tonopah, August 20, 1918.
adv-a20:16

I loan you watch to carry while I repair your own. I am the finest watchmaker who ever came to Tonopah. Emilio Merman at Robert's Grocery store. adv-m13:1
